

The PERFECT solution for nationwide shipping without contact!

We know that currently people are away from their loved ones and are looking for alternatives to be in contact with them. But today, the points of sale of many companies are closed by the contingency.

This is the perfect opportunity for you to provide them with comprehensive and safe solutions that comply with the health and biosafety protocols proposed for the mitigation of COVID-19.

CUBIQ^{go!} The first self-service module in the country!

It allows to make the process of reception of merchandise in an automatic and innovative way without the need for customer service personnel.

In addition, it has our dimensioning system, capable of measuring objects of any form and type, based on artificial intelligence and vision, which will charge the right amount for the shipment of the goods according to its size and weight.
