- ✓ **Traceability of shipments.**
- ✓ **Customized metrics and reports.**
- ✓ **Make the operation efficient and increase your profits.**

-  **Quick**
-  **Easy**
-  **Insurance**
-  **99% accuracy**
-  **Higher productivity!**

Reinvent your business with CUBIQ^X!

Features

- It measures
- Weighs
- Stores in the cloud
- Takes pictures
- Reads barcodes
- WMS or ERP compatible

Technical specifications

Accuracy

99% accuracy in all the measurements, certified by NTEP.

Maintenance

Sealed unit, no parts mobiles. Not required maintenance.

Requirement of installation

None. Operation Immediate.

Information Collected

Measurements of each edge (height, width and length) image and weight of the object.

Compatibility

With any scale and barcode reader scanner with serial communication.

Maximum measurements

95in x 95in x 95in

Speed

2.5 second measurement and data capture. 1-inch accuracy for any object.

Power

110 VAC.

Hardware and Peripherals

Screen

Touch screen 15" with installation base.

CubiQ (Camera)

4 3D cameras perfectly calibrated. 1080p resolution.

Structure

Ceiling - wall *(there are other structure options, They would be quoted separately).

Processing

3 processing units.
